Art Unit: 1755

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2, line 2, replace "blast" with -bast--.

The above amendment does not materially affect the scope or meaning of the instant claims merely correcting an obvious typographical error.

The following is an examiner's statement of reasons for allowance: The prior art of record includes disclosure of a large number of nanocomposite materials comprising various polymers and inorganic fillers. It does not teach the particular combination of cellulose and 0.5 – 25 wt.% clay, nor does it suggest the improvements resulting therefrom. While the combination of cellulose and clay in a nanocomposite may have been obvious to try the prior art fails to teach or suggest the combination in particular or predict the properties thereof. The prior art of record provides evidence that the observed properties of a nanocomposite vary widely and unpredictably based on the components employed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.
